

ID	Process Area	AS-IS State	TO_BE State	Gap	Priority
G-01	Resume Screening	Manual review of 100+ resumes/requisition against JD, no ranking, 4-5 days	ATS auto-parses and ranks candidates against weighted JD criteria, < 1 day, with visible scoring	No automated screening/ranking capability exists	High
G-02	Interview Scheduling	Email/phone across recruiter, candidate, 2-3 panel members, 6-8 days	Auto-scheduling synced with Outlook calendars, conflict-free slot proposal, <2 days, with 4-hr manual override window	No calendar integrated scheduling tool exists	High
G-03	Feedback Collection	Informal, via email/Slack, no fixed deadline, 3–5 days	Structured scorecard with 24h deadline and auto reminder	No structured feedback mechanism or SLA exists	Medium
G-04	SLA & Escalation	No SLA defined at any stage; delays surfaced only via manual escalation	Stage level SLAs with automatic breach alerts to recruiter and Head of TA	No SLA tracking or automated escalation mechanism exists	High
G-05	Funnel Visibility	Status tracked in individual recruiter spreadsheets, no shared visibility	Real time dashboard showing funnel stage status across all requisitions	no centralized system of record exists	High

G-06	Candidate Communication	No status updates sent to candidates during the process	Automated stage level status notifications (applied, under review, interview scheduled, decision pending)	No candidate facing notification capability exists	Medium
G-07	Data Integration	HRIS and recruitment tracking are disconnected; No API based data flow	ATS integrated with HRIS via API, with defined candidate data field mapping	No system integration between HRIS and recruitment tools exists	High
G-08	Data Privacy/ PII Handling	No defined access control or retention policy for candidate data	Formal PII access control and retention policy defined and enforced within ATS	No documented data privacy requirement exists for candidate data	Medium
