

Rule ID	Rule Statement	Trigger	Action	Owner
R-01	IF a candidate's match score is below the configured shortlist threshold, THEN the candidate is auto-excluded from the default shortlist.	Match score calculated (FR-02)	Candidate excluded from default view; visible in "below threshold" tab	System
R-02	IF a recruiter adds a below-threshold candidate to the shortlist, THEN an override reason must be captured before the action is saved.	Manual override attempted (FR-05)	Mandatory comment field enforced	System
R-03	IF a standard requisition's interview slot is proposed, THEN the system auto-books the earliest conflict-free slot after 4 hours unless paused by the recruiter.	Slot proposed (FR-08)	Auto-confirm booking; send calendar invites	System
R-04	IF a recruiter pauses a scheduling request within the 4-hour window, THEN the request is held for manual reassignment and does not auto-book.	Recruiter pause action	Booking held; recruiter notified to manually resolve	Recruiter
R-05	IF panel feedback is not submitted within 18 hours of interview end, THEN an automated reminder is sent to the panel member.	18 hours elapsed, no feedback submitted	Reminder notification sent	System
R-06	IF panel feedback is not submitted within 24 hours of interview end, THEN the case is escalated to the recruiter.	24-hour deadline breached	Escalation alert sent to recruiter	System
R-07	IF a requisition reaches 75% of its stage SLA threshold without completion, THEN it is flagged "at risk" on the dashboard.	75% of SLA threshold elapsed	Dashboard status updated to "at risk"	System
R-08	IF a requisition breaches its SLA threshold twice consecutively, THEN the Head of Talent Acquisition is alerted in addition to the recruiter.	Two consecutive SLA breaches on same requisition	Escalation alert sent to Head of TA	System

R-09	IF a candidate's funnel stage changes, THEN an automated status notification is sent to the candidate without exposing score or ranking detail.	Funnel stage transition (FR-18)	Status notification sent	System
R-10	IF candidate PII has not been accessed or updated for 12 months after requisition closure, THEN the record is auto-purged or anonymized.	12 months post-closure elapsed	PII purge/anonymization job triggered	System
