

TC ID	FR Traced	Test Steps	Expected Results	Actual Results	Status
TC-01	FR-01	Upload a candidate resume with complete fields (skills, experience, education) for an open requisition.	System parses and stores all fields correctly against the candidate record.	As expected	Pass
TC-02	FR-02	Submit a resume with a strong skills match against configured JD criteria.	System calculates and displays a match score reflecting the weighted criteria.	As expected	Pass
TC-03	FR-03	Upload 100 resumes for a single requisition and wait 1 business day.	Ranked shortlist is displayed, sorted by descending match score.	As expected	Pass
TC-04	FR-04	Open a ranked candidate's profile.	Scoring breakdown (skills %, experience %, keyword match %) is displayed alongside overall score.	As expected	Pass
TC-05	FR-05	Attempt to add a below-threshold candidate to shortlist without entering an override reason.	System blocks the action and prompts for a mandatory reason.	As expected	Pass
TC-06	FR-06	Trigger scheduling for a shortlisted candidate with 3 panel members on differing calendars.	System retrieves real-time availability for candidate and all panel members.	As expected	Pass
TC-07	FR-07	Trigger scheduling where multiple free slots exist across all parties.	System proposes up to 3 conflict-free slots.	Only 2 slots proposed instead of 3 due to a display limit bug	Fail
TC-08 a (standard path)	FR-08	Propose a slot for a standard requisition and take no action for 4 hours.	System auto-books the earliest slot and confirms.	As expected	Pass
TC -08 b (override path)	FR-08	Propose a slot; recruiter pauses the request within the 4-hour window.	Booking is held, not auto-confirmed, and flagged for manual reassignment.	As expected	Pass
TC-09	FR-09	Confirm a slot (auto or manual).	Candidate, recruiter, and all panel members receive calendar invite + email.	Panel member calendar invite delayed by ~40 minutes	Fail

TC-10	FR-10	Complete an interview and check for scorecard trigger.	Structured scorecard is presented to the panel member immediately after interview end time.	As expected	Pass
TC-11	FR-11	Attempt to submit feedback after the 24-hour deadline has passed.	System flags submission as late; deadline enforcement visible in record.	As expected	Pass
TC-12	FR-12	Leave feedback unsubmitted until the 18-hour mark.	Automated reminder is sent to the panel member.	As expected	Pass
TC-13	FR-13	Leave feedback unsubmitted past the 24-hour deadline.	Escalation alert sent to the recruiter.	As expected	Pass
TC-14	FR-14	Configure a custom SLA threshold (e.g., 3 days) for a specific requisition stage.	System applies the custom threshold instead of the default.	As expected	Pass
TC-15	FR-15	Allow a requisition to reach 75% of its SLA threshold without stage completion.	Requisition is flagged "at risk" on the dashboard.	As expected	Pass
TC-16	FR-16	Allow a requisition to breach SLA twice consecutively on the same stage.	Head of TA receives escalation alert in addition to recruiter.	As expected	Pass
TC-17	FR-17	Log into the dashboard with multiple active requisitions in different stages.	Dashboard displays all requisitions with current stage, elapsed time, and SLA status.	As expected	Pass
TC-18	FR-18	Move a candidate from "under review" to "interview scheduled."	Candidate receives a status notification without score/ranking detail exposed.	Notification text included internal score value	Fail
TC-19	FR-19	Create a new candidate record in the ATS.	Record syncs to HRIS via API without duplication.	As expected	Pass
TC-20	FR-20	Attempt to access candidate PII with a non-recruiter, non-HR role account.	Access is denied and the attempt is logged.	As expected	Pass

TC-21	FR-21	Simulate a requisition closed 12 months ago with associated candidate PII.	PII is automatically purged or anonymized.	Record flagged correctly but not yet purged; batch job ran on wrong schedule	Fail
